

BABY LOCK SERGER ACCESSORIES

Knit Woven Double Fold Bias Binder 8mm, 10mm, 15mm

(BLCS-DFBB8, BLCS-DFBB10, BLCS-DFBB15)

Instructions

This double fold bias binder will turn fabric strips into binding and attach it to project edges all in one step. This attachment is exclusively for the Coverstitch machine, and is perfect for curved edges, collars, and necklines on knit or woven fabrics.

INSTRUCTIONS:

This double fold bias binder will turn fabric strips into binding and attach binding to project edges all in one step. This attachment is for the Coverstitch machine only, and is perfect for curved edges, collars, and necklines on knit or woven fabrics.

Stitch used:

Left, Center, or Right Chain stitch
Narrow Left or Narrow Right Coverstitch
Wide Coverstitch
Triple Needle Coverstitch

Fabrics and Cutting Instructions:

For binding strips on single knits, cut crosswise grain of fabric.
For binding strips on woven fabrics, cut strips on the bias grain of fabric.

For the 8 mm binder - cut strips 30 mm wide
For the 10 mm binder - cut strips 36 mm wide
For the 15 mm binder - cut strips 48 mm wide

Sewing Speed:

Moderate to slow speed for better guidance.

Sewing Instructions:

Stitch length setting: 3-4

1. With the wrong side of the fabric facing you, feed the binding strips through the serpentine fabric guide and into the binder.

Note: Cut the end of the strip at an angle to help feed it through the binder.

2. Lay the excess fabric strip to the right of the machine, making sure the strip is free of tangles.
3. Keep binding strip flat when feeding into attachment to ensure the fabric edges will roll under when sewing.
4. Pull binding strip out of the end of the binder and pivot the strip 90° to place it under the foot.
5. Make sure the binding strip is still folded when placing under the presser foot.
6. Feed the project to be bound along the left end of the attachment into the folded bias and under the presser foot.
